TRUCK No. 187 DRIVER CALVIN

All material prices are quoted based on curb side delivery. Customer/Contractor agrees to provide a suitable roadway from public highway to the place where product is to be unloaded. Customer agrees to be responsible for all damage or back charges if clear access beyond the curb line is not provided. Any fill to be transported off site must be clear of all contaminants that would otherwise cause it to be hazardous or special waste, unless manifested as such. Customer/Contractor, when loading spoil out, will be responsible for any overweight fines, any additional charges, or removal costs incurred when dumping at Customer/Contractor authorized dumps.

CARRIER MTI

TRUCK No. 313 DRIVER LARRY

All material prices are quoted based on curb side delivery. Customer/Contractor agrees to provide a suitable roadway from public highway to the place where product is to be unloaded. Customer agrees to be responsible for all damage or back charges if clear access beyond the curb line is not provided. Any fill to be transported off site must be clear of all contaminants that would otherwise cause it to be hazardous or special waste, unless manifested as such. Customer/Contractor, when loading spoil out, will be responsible for any overweight fines, any additional charges, or removal costs incurred when dumping at Customer/Contractor authorized dumps.

TRUCK No. 205 DRIVER RECH

All material prices are quoted based on curb side delivery. Customer/Contractor agrees to provide a suitable roadway from public highway to the place where product is to be unloaded. Customer agrees to be responsible for all damage or back charges if clear access beyond the curb line is not provided. Any fill to be transported off site must be clear of all contaminants that would otherwise cause it to be hazardous or special waste, unless manifested as such. Customer/Contractor, when loading spoil out, will be responsible for any overweight fines, any additional charges, or removal costs incurred when dumping at Customer/Contractor authorized dumps.

TRUCK No. 212 DRIVER LARRY

All material prices are quoted based on curb side delivery. Customer/Contractor agrees to provide a suitable roadway from public highway to the place where product is to be unloaded. Customer agrees to be responsible for all damage or back charges if clear access beyond the curb line is not provided. Any fill to be transported off site must be clear of all contaminants that would otherwise cause it to be hazardous or special waste, unless manifested as such. Customer/Contractor, when loading spill out, will be responsible for any overweight fines, any additional charges, or removal costs incurred when dumping at Customer/Contractor authorized dumps.

All material prices are quoted based on curb side delivery. Customer/Contractor agrees to provide a suitable roadway from public highway to the place where product is to be unloaded. Customer agrees to be responsible for all damage or back charges if clear access beyond the curb line is not provided. Any fill to be transported off site must be clear of all contaminants that would otherwise cause it to be hazardous or special waste, unless manifested as such. Customer/Contractor, when loading spoil out, will be responsible for any overweight fines, any additional charges, or removal cost incurred when dumping at Customer/Contractor authorized dumps.

TRUCK No. 153 DRIVER RAY

All material prices are quoted based on curb side delivery. Customer/Contractor agrees to provide a suitable roadway from public highway to the place where product is to be unloaded. Customer agrees to be responsible for all damage or back charges if clear access beyond the curb line is not provided. Any fill to be transported off site must be clear of all contaminants that would otherwise cause it to be hazardous or special waste, unless manifested as such. Customer/Contractor, when loading spoil out, will be responsible for any overweight fines, any additional charges, or removal costs incurred when dumping at Customer/Contractor authorized dumps.

TRUCK No. 214 DRIVER IBONE

All material prices are quoted based on curb side delivery. Customer/Contractor agrees to provide a suitable roadway from public highway to the where product is to be unloaded. Customer agrees to be responsible for all damage or back charges if clear access beyond the curb line provided. Any fill to be transported off site must be clear of all contaminants that would otherwise cause it to be hazardous or special waste manifested as such. Customer/Contractor, when loading spoil out, will be responsible for any overweight fines, any additional charges, or removal incurred when dumping at Customer/Contractor authorized dumps.

All material prices are quoted based on curb side delivery. Customer/Contractor agrees to provide a suitable roadway from public highway to the place where product is to be unloaded. Customer agrees to be responsible for all damage or back charges if clear access beyond the curb line is not provided. Any fill to be transported off site must be clear of all contaminants that would otherwise cause it to be hazardous or special waste, unless manifested as such. Customer/Contractor, when loading spoil out, will be responsible for any overweight fines, any additional charges, or removal costs incurred when dumping at Customer/Contractor authorized dumps.

All material prices are quoted based on curb side delivery. Customer/Contractor agrees to provide a suitable roadway from public highway to the place where product is to be unloaded. Customer agrees to be responsible for all damage or back charges if clear access beyond the curb line is not provided. Any fill to be transported off site must be clear of all contaminants that would otherwise cause it to be hazardous or special waste, unless manifested as such. Customer/Contractor, when loading spoil out, will be responsible for any overweight fines, any additional charges, or removal costs incurred when dumping at Customer/Contractor authorized dumps.

TRUCK No. 210 DRIVER SCOTT

All material prices are quoted based on curb side delivery. Customer/Contractor agrees to provide a suitable roadway from public highway to the place where product is to be unloaded. Customer agrees to be responsible for all damage or back charges if clear access beyond the curb line is not provided. Any fill to be transported off site must be clear of all contaminants that would otherwise cause it to be hazardous or special waste, unless manifested as such. Customer/Contractor, when loading spoil out, will be responsible for any overweight fines, any additional charges, or removal costs incurred when dumping at Customer/Contractor authorized dumps.

RUCK No. 217 DRIVER GREG

If material prices are quoted based on curb side delivery, Customer/Contractor agrees to provide a suitable roadway from public highway to the place where product is to be unloaded. Customer agrees to be responsible for all damage or back charges if clear access beyond the curb line is not provided. Any fill to be transported off site must be clear of all contaminants that would otherwise cause it to be hazardous or special waste, unless enlisted as such. Customer/Contractor, when loading spoil out, will be responsible for any overweight fines, any additional charges, or removal costs incurred when dumping at Customer/Contractor authorized dumps.

If material prices are quoted based on curb side delivery, Customer/Contractor agrees to provide a suitable roadway from public highway to the place where product is to be unloaded. Customer agrees to be responsible for all damage or back charges if clear access beyond the curb line is not provided. Any fill to be transported off site must be clear of all contaminants that would otherwise cause it to be hazardous or special waste, unless manifested as such. Customer/Contractor, when loading spill out, will be responsible for any overweight fines, any additional charges, or removal costs incurred when dumping at Customer/Contractor authorized dumps.

All material prices are quoted based on curb side delivery. Customer/Contractor agrees to provide a suitable roadway from public highway to the place where product is to be unloaded. Customer agrees to be responsible for all damage or back charges if clear access beyond the curb line is not provided. Any fill to be transported off site must be clear of all contaminants that would otherwise cause it to be hazardous or special waste, unless manifested as such. Customer/Contractor, when loading spoil out, will be responsible for any overweight fines, any additional charges, or removal costs incurred when dumping at Customer/Contractor authorized dumps.

All material prices are quoted based on curb side delivery. Customer/Contractor agrees to provide a suitable roadway from public highway to the place where product is to be unloaded. Customer agrees to be responsible for all damage or back charges if clear access beyond the curb line is not provided. Any fill to be transported off site must be clear of all contaminants that would otherwise cause it to be hazardous or special waste, unless manifested as such. Customer/Contractor, when loading spoil out, will be responsible for any overweight fines, any additional charges, or removal costs incurred when dumping at Customer/Contractor authorized dumps.

All material prices are quoted based on curb side delivery. Customer/Contractor agrees to provide a suitable roadway from public highway to the place where product is to be unloaded. Customer agrees to be responsible for all damage or back charges if clear access beyond the curb line is not provided. Any fill to be transported off site must be clear of all contaminants that would otherwise cause it to be hazardous or special waste, unless manifested as such. Customer/Contractor, when loading spoil out, will be responsible for any overweight fines, any additional charges, or removal costs incurred when dumping at Customer/Contractor authorized dumps.

All material prices are quoted based on curb side delivery. Customer/Contractor agrees to provide a suitable roadway from public highway to the place where product is to be unloaded. Customer agrees to be responsible for all damage or back charges if clear access beyond the curb line is not provided. Any fill to be transported off site must be clear of all contaminants that would otherwise cause it to be hazardous or special waste, unless manifested as such. Customer/Contractor, when loading spoil out, will be responsible for any overweight fines, any additional charges, or removal costs incurred when dumping at Customer/Contractor authorized dumps.

**Weekly Progress Reports
Former Pitney Court Station**

1431 Opus Place, Suite 400
Downers Grove, Illinois 60515

Week of: 1/28/07 to 2/03/07

Subject: Site Remediation
Peoples Gas – Pitney Court Site

Burns & McDonnell Personnel Onsite

Construction Site Manager

- Amy Hanrahan
- Darrel Wolff
- Tim Maley

Field Personnel

- Adrian Wenker
- Bal Berena
- Melissa Parangao
- Nathan Ykema

Remediation Supervisor

- Ed Wiese
- Mike Swieca

Others

- Margaret Kelley
- Larry Milner

Peoples Gas Personnel Onsite

- Naren Prasad
- Chris Szela
- Steve Matuszak

Site Activities

BURNS & MCDONNELL

- Coordinated activities with Guardian Security, RW Collins, Waste Management, Illinois Mining and Great Lakes Soil Testing;
- Completed real time air monitoring (6 stations) (Air Logics);
- Collected 24-hr samples using SUMMAs, PM10 units, and PUFs;
- Collected soil confirmation samples PCS-CF020-001, PCS-EW020-001, PCS-CF019-002, PCS-CF026-001, PCS-EW026-001 and PCS-CF025-001; and
- Took Site progress photographs.

RW COLLINS

- Continued general Site house keeping;
- Kept streets clean from construction debris;
- Pumped water to frac tank (as needed);
- Maintained Site haul roads;
- Cleared snow from Site work areas;

Subcontractors Onsite

- RW Collins (4 operators, 3 laborers, 1 supervisor)
- Service Sanitation
- W-T Land Surveying
- Illinois Mining
- Homer Industries
- Benchmark Construction

Others

- Waste Management (Sub to Peoples Gas)
- MT – Transit (Sub to Waste Management)

Miscellaneous Visitors

- Continued to backfill areas CF078, CF079, CF080 and CF081;
- Completed excavation activities in areas CF019, CF020, CF025 and CF026; and
- Continued excavation activities in areas CF031 and CF032.

W-T LAND SURVEYING

- Completed weekly damaged control monitoring.

SERVICE SANITATION

- Serviced and cleaned on site portable toilets.

ILLINOIS MINING

- Delivered 11 loads of CA-7 (3/4") backfill material.

HOMER INDUSTRIES

- Delivered 2 loads of woodchips to be used to stabilize soil for disposal.

MT-TRANSIT

- Hauled 297 loads (approximately 4,420 tons) of soil off site to CID Biopile; and

BENCHMARK CONSTRUCTION

- Completed installation of new permanent storm sewer from Pitney Court to MWRD structure on site.

WASTE MANAGEMENT

- Emptied on site trash dumpster.

Changes to Scope of Work

- Extremely low temperatures and wind conditions may prevent or limit excavation, backfilling and compaction efforts during the week of February 5th. Efforts will be made to minimize, to the extent possible, standby charges.

Open/Outstanding Issues

- Burns & McDonnell will proceed with installing the 30 mil plastic sheeting around the side walls of the soil in the MWRD easement. Additional soil samples will **NOT** be collected from within the easement.
- A preliminary cost evaluation was conducted to evaluate the possibility of renting a crusher to crush concrete at Hough and Pitney. Additional evaluation is ongoing, considering the excavation water management and disposal required when using larger stone at the base of the excavation, and the possibility of crushing the concrete to a smaller size (3/4 inch minus).
- A draft Work Plan is under development to establish post-remediation soil gas conditions.

Anticipated Activities for the Week of February 4, 2007

- Continue backfill activities in CF078, CF079, CF080 and CF081(weather permitting);
- Start backfill activities in areas CF008 and CF014(weather permitting);
- Continue excavation activities in areas CF031 and CF032;
- Haul an estimated 40 loads per day for disposal (weather permitting);
- Continue to pump water from excavation areas on an as needed basis; and
- Collect 24 hour air samples using SUMMAs, PM10 units and PUFs.

Peoples Gas – Pitney Court Site

January 30, 2007

Peoples Gas Personnel Onsite

Miscellaneous Visitors

- Don Dawicki, Bill Cicero, Bonnie Staackmann, and Will Elcoate (Severn Trent Laboratories)

Site Activities

BURNS & MCDONNELL

- Coordinated activities with Guardian Security, RW Collins, and Waste Management;
- Postponed backfill and compaction efforts due to the extremely low outdoor temperatures;
- Completed real time air monitoring (6 stations) (Air Logics);
- Collected 24-hr samples using SUMMAs, PM10 units, and PUFs;
- Collected soil confirmation samples PCS-CF031-001, PCS-CF032-001, PCS-EW032-001, PCS-EW032-002 and PCS-CF037-001; and
- Took Site progress photographs.

RW COLLINS

- Continued general site house keeping;
- Kept streets clean from construction debris;
- Pumped water to frac tank (as needed);
- Maintained site haul roads;
- Cleared snow from Site work areas;
- Completed excavation activities in areas CF031, CF032 and CF037; and
- Continued excavation activities in area CF038.

W-T LAND SURVEYING

- Completed weekly damaged control monitoring.

SERVICE SANITATION

- Serviced and cleaned on site portable toilets.

HOMER INDUSTRIES

- Delivered 7 loads of woodchips to be used to manage soil for disposal.

MT-TRANSIT

- Hauled 160 loads (approximately 2,190 tons) of soil off site to CID Biopile; and

WASTE MANAGEMENT

- Emptied on site trash dumpster.

UNITED SCRAP

- Changed out 1 roll-off box full of scrap metal.

Changes to Scope of Work

Open/Outstanding Issues

- Burns & McDonnell will proceed with installing the 30 mil plastic sheeting around the side walls of the soil in the MWRD easement. Additional soil samples will **NOT** be collected from within the easement.
- A preliminary cost evaluation was conducted to evaluate the possibility of renting a crusher to crush concrete at Hough and Pitney. Installing the unit at Hough would be the most cost effective and is planned. All material will be crushed to ¾ inch minus and will be transported back to Pitney to use as backfill.

Anticipated Activities for the Week of February 11, 2007

- Continue backfill activities in CF078, CF079, CF080 and CF081(weather permitting);
- Start backfill activities in areas CF008 and CF014(weather permitting);
- Continue excavation activities in areas CF038 and CF068;
- Haul an estimated 40 loads per day for disposal;
- Continue to pump water from excavation areas on an as needed basis; and
- Collect 24 hour air samples using SUMMAs, PM10 units and PUFs.

Peoples Gas – Pitney Court Site

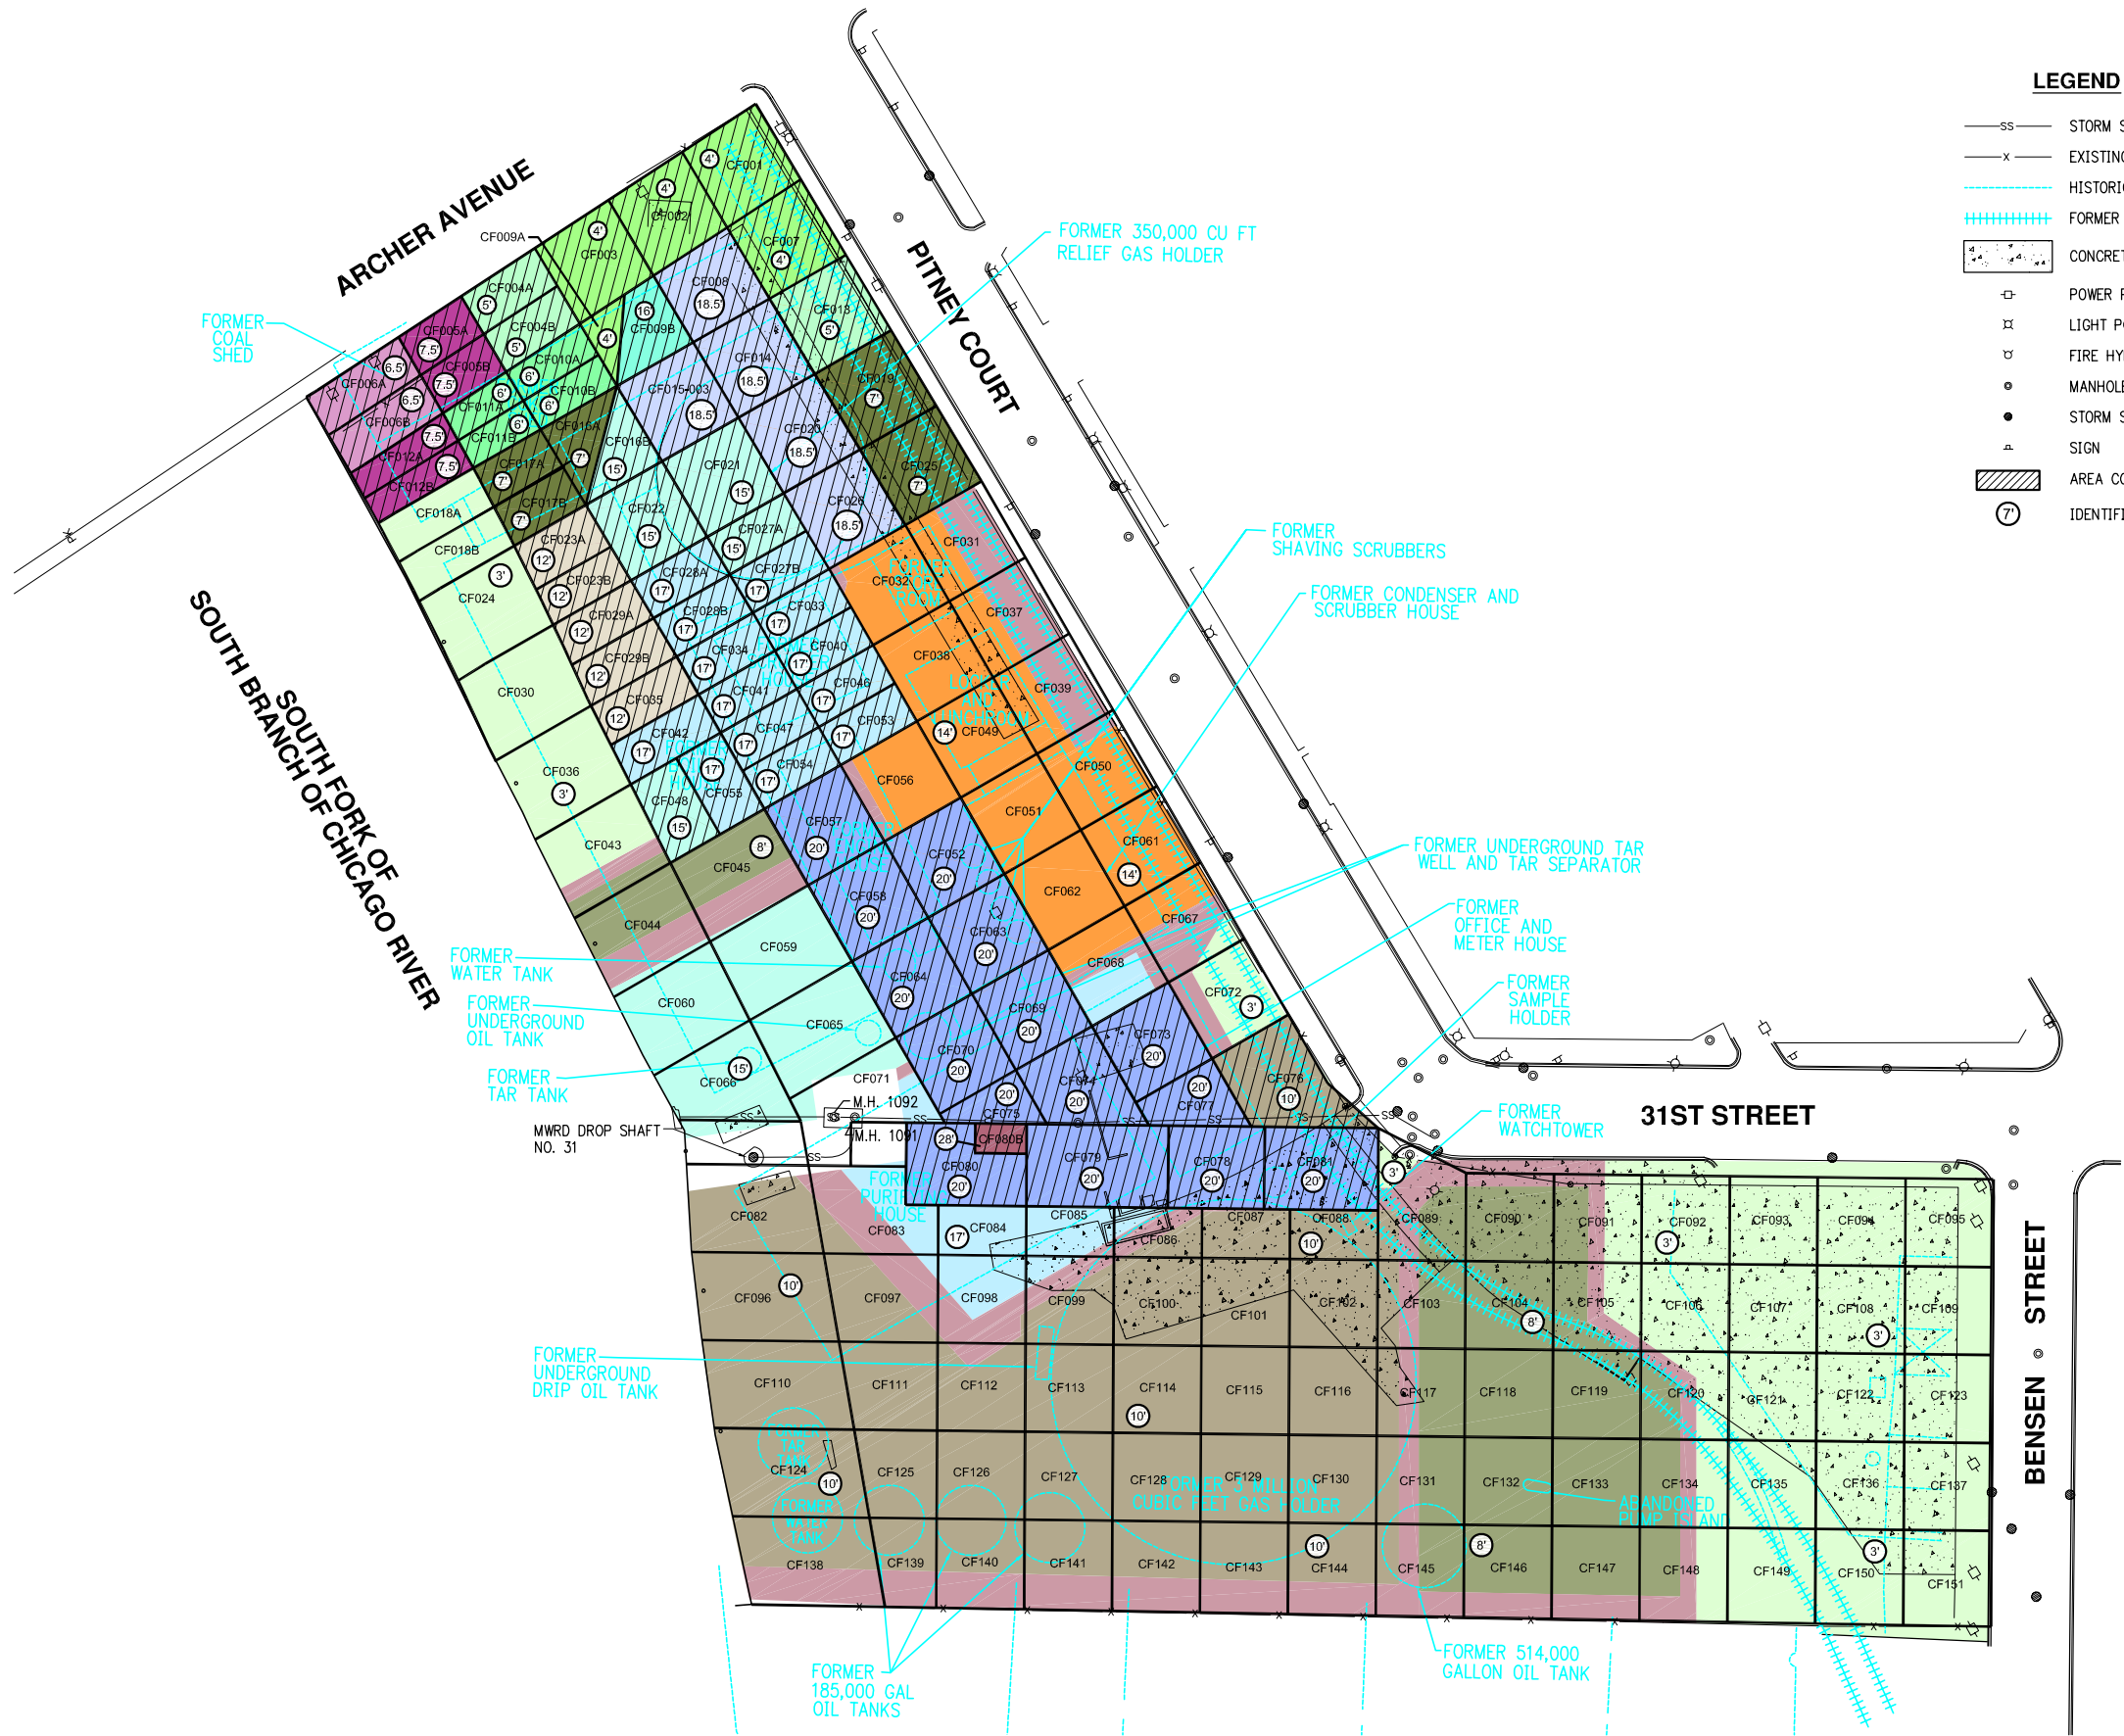

February 5, 2007

View facing southwest showing stockpile of scrap metal to be cut up and place in scrap metal roll off box. No suspect ACMs were identified.

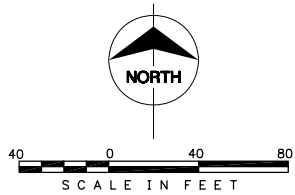

February 5, 2007

View facing north showing the excavation progress in areas CF031 and CF037.

Site Activities

BURNS & MCDONNELL

- Coordinated activities with Guardian Security, RW Collins and Waste Management;
- Completed real time air monitoring (6 stations) (Air Logics);
- Collected 24-hr samples using SUMMAs, PM10 units and PUFs;
- Assisted the Hough team with permitting and arranging for the crusher to be set up at Hough; and
- Took Site progress photographs.

RW COLLINS

- Continued general Site house keeping;
- Kept streets clean from construction debris;
- Pumped water to frac tank (as needed);
- Maintained site haul roads;
- Cleared snow from Site work areas; and
- Continued excavation activities in areas CF038, CF068 and CF062.

W-T LAND SURVEYING

- Completed weekly damaged control monitoring.

SERVICE SANITATION

- Serviced and cleaned on site portable toilets.

HOMER INDUSTRIES

- Delivered 8 loads of woodchips to be used to stabilize soil for disposal.

MT-TRANSIT

- Hauled 164 loads (approximately 2,540 tons) of soil off site to CID Biopile; and

WASTE MANAGEMENT

- Emptied on site trash dumpster.

UNITED SCRAP

- Changed out 1 roll-off box full of scrap metal.
